Time to sit back, grab some popcorn and chips, and enjoy the show. The curtain is going up.

It is difficult to identify when Neil Keenan actually took that first step on the Yellow Brick Road. Some say it was predestined karma that splat his backside on this bumpy path.

Or was it fateful curiosity that trapped this cat? Or was it madness? In any case, gold always catches the eye of elite level businessmen, and Neil had that Irish gleam in his eye.

We are starting this journey in 2008 as that was the point in time that a paper trail of crumbs led Neil to an adventure that bloomed and then exploded into proportions that he never could have imagined or anticipated.

Almost overnight Neil went from a successful businessman to a Monster Slayer attacking the very foundation of Global Finance and the holds of the Elite Cabal who run the Western World.

So we start here with fateful meetings and the introduction of major Players.

Europe and Japan 2008

In 2008 Neil was based in Europe for business jaunts around Western and Eastern Europe. He had already made substantial contacts with political and financial leaders throughout Europe and his name was heard by many more as it preceded him in top business circles.

The First Step on the Yellow Brick Road

Neil's first steps down the Yellow Brick Road were the result of his business contacts with Swiss Bankers and London Financial Experts. This is where he stepped up his game, learning about elite Private Placement Programs (PPP's), funny colored paper that Banks and the Cabal use (Stocks, Bonds, Derivatives, CD's, L/C's, etc.) to create and move money.

These investigations eventually led to the trail of "paper gold", often referred to as "**Historical Bonds**" of various types and based on stored gold or other assets.

This glitter paper has attracted many explorers over many generations as there is always hope that there is a treasure chest at the end of the rainbow. That is not the reality for most intrepid diggers along this path, but those that dig deep enough come to realize that somewhere there really is a stash of Solomon's gold, Caesars' loot and all those Spanish doubloons and Pieces of Eight.

Those big beautiful bars in thick vaults are proof but as you go down that road, you come to the realization that a whole lot of that yellow metal ended up in tropical ASIA as a result of trade and the use of real money for real goods. Neil reached that level of understanding real early, so he just kept digging to see if he could find the "Keepers of the KEYS."

All significant wealth has OWNERS and their legal descendants, or Trustees, Signatories, appointed Depositors, and so on. These names and the location of their stashes are closely held secrets.

These are often recorded in the **Book of Codes**, the **Book of Maklumat**, the deposit records of the **Bank of International Settlements (BIS)**, and other secret books and papers held by various code named persons. Digging out names is more difficult than pulling teeth.

This puts curious Neil in the halls of Swiss Secrecy, the trove of Who's Who Has What. His footprints are all over these hallowed halls as he intrepidly digs for directions and new leads to the treasure maps of the future.

The Meeting with Yamaguchi

In early 2008 one of Neil's Swiss banking contacts made arrangements for Neil to meet with **Mr. Akihiko Yamaguchi**, a Japanese diplomat and Dragon Family representative with Ownership and Signatory authorization to some very valuable historical notes and bonds.

The Swiss banker actually wanted Neil to assist him in getting projects that could be used in order to "cash-in" these certificates as collateral behind the issuance of billions of US Dollars that the Swiss bank would eventually manage and make a huge profit.

I scratch your back and you scratch mine, and this is how we do it... was the plan.

So Neil meets Akihiko Yamaguchi and they hit it off well together. Mr. Yamaguchi was a Japanese diplomat and a representative one branch of the Asian Golden Dragon Family actually tasked with contacting Neil (a spiritual connection).

Neil tells Yamaguchi that he can arrange major projects in the Caribbean, Central and South America which would fulfill the humanitarian conditions of such funds release, as well as, provide other financial and joint venture business opportunities (Neil is a businessman always) such as PPP rollover programs through his London contacts which could use the Bonds and Notes as collateral securities behind trading programs.

Further meetings with Yamaguchi resulted in the firming up of the transaction over several months. This involved initial agreements, Memorandums of Understanding, and a whole bunch of banker to the US Federal Reserve Bank correspondences and requests for funds use and release as genuine collateral. This is normal banker red tape delays which gave Neil and others more time to get things in place.

The Japanese Links

During the interim documentation period, Neil renewed his contact with his mentor and friend, Dr. Van de Meer who added more insight and background knowledge to Neil's foray into high finance.

Dr. Van de Meer was instrumental in steering Neil through the intricacies of Cabal financing, the mechanisms of PPP programs and to trust NO ONE. Dr. Van de Meer was a former high level intelligence operative who taught Neil the ropes and how to pull financial strings.

Neil was also introduced to Count Albert at this time, was a principal and a key figure in the Asian Golden Dragon Family hierarchy. This turned out to be an important friendship for Neil.

Count Albert eventually became Neil's main link to the Golden Dragon Family and was a regular confidant, mentor and good friend.

Neil, Dr Van de Meer and Benjamin Fulford - The White Dragons

During this interim phase, Neil was busy organizing his own Team that would be handling humanitarian investments worldwide. This was the beginning of his Group-K.

Neil's Friend – Dr. (The Original 007) Van de Meer

As this complex transaction began to materialize, Neil realized that he was treading in unknown waters and that he could not make any mistakes. So he turned to his old friend and mentor, Dr. Van de Meer and [Tom Clines](#) for advice and support.

Dr. Van de Meer was a real 007 agent, spy, fomenter, financier and a man of many hats and aliases. He guided Neil through the intricacies of PPP's, introduced the key Players / Traders, set the stage for the securing of funds and in general acted as Neil's "go to man" that enabled him to stay on track and make no mistakes. This was Neil's "Deal of a Lifetime" so he had to do it right.

Meeting up with Benjamin Fulford

Into the picture comes Benjamin Fulford, who was introduced by Dr. Van de Meer. Benjamin somehow got wind of Neil's interests and that lots of money was involved that could possibly be used for Ben's own humanitarian and meritocracy programs.

Ben brought to the table contacts that potentially dovetailed with Neil's ideas for a new financial system separate from the West. He also stated that he had contacts within or associated to the Vatican.

We Three Discuss World and Asian Politics

This began Neil's formulation of a new Global Financial Plan. Benjamin had some good ideas and some flaky ones - and no money. Neil listened, discussed and conferred with Dr. Van de Meer. Ideas and directions began to jell.

Neil was open to the idea of a new Asian based financial system because he had too many run-ins with corrupt Western bankers.

He clearly saw that the West's fiat system was flawed and would collapse, but with Asian "real asset" backing, a new financial system could emerge as a viable alternative.

Ben Decided to Register the White Dragon Society

As a result of these financial discussions Ben and his Japanese friend, decided that they needed a registered company to act as a financial vehicle with which to place and use financial resources that might accrue from Neil's transactions and thus tried to include Neil in this misadventure, but Neil refused.

To this end Ben and his friend formed and registered ***The White Dragon Society, which was just three people. (Ben had added Neil's name without his permission and later Neil dropped out).***

There were ever only two members (not thousands as Ben would have you believe) and after 5-years with no business the WDS was wound up and was de-registered. Apparently Ben has re-registered a new WDS, but that also has nothing to do with Neil or very few others and still has no money.

The Bonds and the Actual Plan

As plans and documentation began to flow, Neil met again and again with Yamaguchi and Count Albert. Details and more details were cleared. People and projects were lined up. Everything was going according to plan.

The Swiss bankers were happy, the Dragons were smiling and Neil was sweating.

By October 2008 with the help and overseeing of Yamaguchi, Neil Keenan was officially authorized by the Dragon Family, in writing, and executed with a certain **Special Power of Attorney (POA)**, by which he, with the approval of the Head of the Dragon Family, could use the Dragon Family Financial Instruments and Notes for any world economic aid and humanitarian projects.

The **Financial Package** included: -

▶ ***The “1934 United States Federal Reserve Notes”***

249 FRB notes, each with a face value of 500 Million each, with a total face value of US\$ 124.5 Billion, with each bearing an interest coupon of 4% per annum since 1934.

▶ ***The “Japanese Bonds”***

Two Japanese Government Bonds – 57 Series, each having a face value of 500 billion Japanese Yen, which was equivalent to an amount in excess of \$9.5 Billion United States Dollars.

▶ ***The “Kennedy Bond”***

1 Kennedy Bond, with a face value of \$1 Billion United States Dollars. The Kennedy Bonds, were good, clean, clear and free from any liens and encumbrances.

*This financial package had a nominal face value of over US \$ 135 billion, but with accrued interest it was worth in **excess of US \$ 1.0 TRILLION** at that time.*

For the services he was to provide in connection with the placement of the Federal Reserve Notes, the Japanese Bonds and the Kennedy Bonds, Neil Keenan was to receive at least 30% of any profit-sharing from any particular PPP, with such profits to be invested into infrastructural, humanitarian and economic development projects.

In January 2009 Neil Keenan personally accepted custodianship and possession of the **Federal Reserve Notes**, the **Japanese Bonds** and the **Kennedy Bond** in Zurich Switzerland, and the responsibility to represent the Dragon Family for investment of the Notes into trading Private Placement Programs (PPP's).

Yamaguchi and Neil Keenan going over the bonds and notes

In May 2009 Neil Keenan acknowledged in writing the receipt of all these instruments which comprise the Dragon Family Financial Instruments notes and bonds and whose present-day value (with interest) is over USD\$ 1.0 trillion. This portion of the Dragon Family's accumulated wealth (gold) that was registered in the Federal Reserve system, the BIS and was officially exchanged for the registered FRN's.

Un-announced and un-known was the fact that all the notes and bonds had to be **SIGNED ONLY BY YAMAGUCHI** in order to officially validate them, otherwise they were nothing but

fancy colored paper of no collateral value whatsoever.

Also, since these certificates were authenticated as being genuine, anyone other than Yamaguchi or Neil Keenan, if they even touched them without his permission, would be internationally guilty as an accomplice in the abetment of a US TRILLION DOLLAR THEFT.

Neil was legally given the sole right to handle these notes in writing. No one else. And the notes he received were NOT SIGNED as this is only done when closing the final transaction.

This means that whoever or in whichever financial institution that these certificates have been lodged, these perpetrators together with their accomplices along the way are still guilty of Grand Theft and can be arrested at any time.

They are holding a Trillion Dollar hot potato and if they have used or attempted to use these as collateral, hypothecated, mirrored or bundled into any financial instrument, whatever gains that they may have made will be confiscated and be returned back to Neil Keenan and the Dragon Family Owners.

This is still an **on-going legal case** as Neil has never requested that the stolen notes be cancelled and re-issued, which was an option, but one that he refused in order to legally go after various Cabal operatives involved (as will be detailed later).

Neil Keenan was authorized with a Special POA on the entire financial package to negotiate the final details and enter into cash enhancement and / or project transactions relating to Private Placement Programs (PPP's) and the investment of profits obtained in projects of his determination.

With the financial instruments as collateral, Keenan was authorized to invest into a fully secured Investment Facilities and, in fact, Keenan was "***empowered with all of my powers***" by the Dragon Family.

It was the clear intent of the Dragon Family to utilize the assets being placed in various Programs for humanitarian purposes, as well as, to test Neil Keenan and his financial abilities.

Security, Diplomatic Immunity, Japanese Transporters and Routes

At the end of May 2009, at about the same time that Neil accepted the Dragon Family financial instruments, Yamaguchi and his diplomatic friend, Mitsuyoshi Watanabe, received a phone call from the former US Federal Reserve Chairman, Alan Greenspan, who wanted to meet with Yamaguchi in Switzerland to discuss swapping some of the 1934 FRN's with a new issue of bonds.

Yamaguchi agreed to this meeting early the next week in Bern. Yamaguchi then went to his Swiss Bank and withdrew an agreed number of the FRN's from their safekeeping account in Zurich in preparation for placing them in a separate swap deal with the FED's ex-Chairman as approved and agreed.

Yamaguchi then placed the certificates in his attaché bag and left Switzerland for a weekend stay with friends in Italy.

While relaxing in Italy he got a call from Alan Greenspan, the FED's ex- Chairman, requesting that they should meet at a particular time and location in Switzerland to finalize the swap issues concerning the 1934 Federal Reserve Notes.

Little did Yamaguchi know that Greenspan had been in contact with the Italian President Berlusconi with a plot to steal the certificates Yamaguchi was holding.

The Chiasso Incident: \$134.5 Billion Stolen

In early June 2009 International news media reported that Notes worth \$134.5 billion were seized (stolen) from two Japanese "diplomats", Akihiko Yamaguchi and Mitsuyoshi Watanabe, while crossing the border by train in Chiasso, an Italian town located on the border of Italy and Switzerland.

They were approached directly by the Italian Financial Police. Their bags were searched and the pair was found to be carrying Dragon Family financial instruments.

The Italian Financial Police detained them for attempting to enter Switzerland with “undeclared and possibly fake United States Treasury Bonds” concealed in a hidden compartment in a suitcase. (They were plainly available in his briefcase, so they obviously lied.)

The Financial Police display of the confiscated Bonds

Yamaguchi advised the authorities that they were in possession of valid historic bonds (unsigned) and a mistake was being made. Subsequently Yamaguchi and Watanabe were released because they “broke no laws” and had Diplomatic immunity, but the Italian Financial Police KEPT the FRN’s supposedly as “evidence” of possible false documents.

On June 4 Yamaguchi sent an email to Keenan from Barcelona advising that he was well, but was otherwise silent as to the events that had transpired upon his departure from his friend’s chalet in Carimate, Italy and the financial fiasco in Chiasso.

But later the Italian news and the world financial media reported the incident and arrest of the Japanese as one of the biggest financial captures of all time.

Then later the Italian media falsely reported that charges were still pending against the two Japanese and they were expected to be heard before the Procura Della Repubblica in Como, Italy in May 2011.

According to at least one Italian newspaper, “La Provinca” (which, happens to be owned by then Prime Minister Berlusconi’s brother) on or about June 30 2011, Yamaguchi and

Watanabe were still going to be sentenced to three and a half years in prison for trying to smuggle debt securities deemed to be false (which had already been authenticated as being genuine). (Are you starting to smell a political rat?)

Do you have to ask yourself, “Who tipped off the Italian Financial Police?” Neil later confirmed that no charges were ever filed anywhere in Italy as this was from the beginning a “set-up”.

Alan Greenspan - Federal Reserve Chairman from 1987 - 2006

Neil Keenan discovered that this theft in Chiasso was primarily at the direction of Alan Greenspan and Italian Prime Minister Berlusconi, however, it involved a much, more vast worldwide network of Cabal organizations, banks and governments.

The FRN's could be confirmed as being “authentic” but could not be used as registered collateral as they were not signed and had been reported stolen.

But that would not deter crooks from illegally selling them as genuine notes redeemable in gold to unsuspecting Buyers or crooked Banksters or governments.

Silvio Berlusconi - 50th Prime Minister of Italy

Eventually the certificates were **never returned** to Yamaguchi or Neil and then the shell game began in earnest. The Italian Financial Police came to realize that they could be held liable if they illegally held the documents as Neil made it very clear that only he and Yamaguchi had such authority.

Basically Neil scared the shit out of them as they had no legal grounds whatsoever and Neil would be coming after them in full force. Hands up the Italian Police released the certificates... to - Berlusconi!

Enter Stage Left – Leo Zagami and Daniel Dal Bosco

In July of 2009 Mr. Leo Zagami, a self-described 33rd-degree Freemason with the P2 (Propaganda Due) Lodge in Monte Carlo, arrived in Japan to speak with Benjamin Fulford, who Zagami already knew was in touch and working with Neil. Hmmmm.

After their meeting, Zagami informed Fulford that he had information that Yamaguchi and Watanabe had been “set up” at Chiasso and further that he had “inside information” concerning the seizure of the Dragon Family Chiasso Instruments.

Fulford and Zagami

Upon return to Italy, Zagami contacted Fulford again to arrange a meeting in Rome where, among other things, they again discussed the Chiasso incident.

Zagami introduced Fulford through Skype conversations to Daniel Dal Bosco, who Zagami said represented him and was a trustworthy Vatican Banker and was also associated with the P2 Masonic Lodge.

Zagami told Fulford that Dal Bosco would be able to help **“cash the bonds seized by the Italian Treasury Police.”** (The BAIT and hungry Foolford fell for it and the glitter dream of cash in his empty pockets.)

As a result of the Fulford/Zagami discussions on or about July 2009, Neil Keenan received a request for a meeting from Dal Bosco, who used Fulford and Zagami’s names as references.

Keenan and Dal Bosco then spoke via Skype about technical financial matters in conversations on an almost daily basis for approximately six weeks and thereafter until they arranged to meet in September.

Dal Bosco claimed that he was not only financial advisor to Zagami, but also to the Vatican, Vatican City, Rome, as well as, being the Treasurer of the P2 Masonic Lodge in Rome and Monte Carlo. These were all carefully crafted lies, but Neil needed help and Dal Bosco had answers and contacts.

Subsequently Neil Keenan became convinced that it was in his best interests, and also for his safety and that of his Dragon Family principal, to entrust Dal Bosco with custodianship of the certificates for safekeeping in banks while Neil was traveling around Europe closing program plans and arranging humanitarian projects.

Neil was an obvious target if he had billions in certificates in his travel bag and wanted to avoid another Chiasso affair with national police thugs.

On September 18th, prior to Neil Keenan's departure for the Zurich airport to return home, Keenan physically entrusted the Dragon Family certificates to Dal Bosco, as had been planned and discussed in their meetings. This was a test as Neil knew the Notes were unsigned and essentially worthless.

On subsequent and frequent trips throughout Europe and Zurich, Dal Bosco would meet Keenan and safekeep the certificates back into Keenan's possession until Keenan's next departure at which time Keenan would again entrust them to Dal Bosco. This set up a working trust relationship... read as: a "set up."

And this was an inconvenient worry that was lifted off Neil's shoulders while traveling. He also knew that the Notes were worthless without Yamaguchi's signature or a Power of Attorney to even hold them so Dal Bosco would be in a bind if he ever tried anything.

Dal Bosco didn't know that and as soon as he had his hands on the glitter, he began with his own plots.

Everyone Eyeing the Bonds

Besides Greenspan and Berlusconi trying to stick their fingers in the pie, now Dal Bosco with his nefarious contacts starts bringing in even more abettors to join the fun. He personally confirmed that the certificates were genuine and thus started showing them around to possible Players. "See. Look what I have!" became his theme song.

By February 2010 Dal Bosco informed Neil that he had made contact with senior UN representatives in Rome, Italy through the assistance of **Giancarlo Bruno** and the World Economic Forum (WEF), in Geneva, Switzerland in a deal whereby Dal Bosco and Keenan could receive **100 Million U.S. Dollars cash** for all the remaining 1934 United States Federal Reserve Notes.

Neil, of course, rejected this offer outright as his negotiated PPP programs would yield much higher returns and are based on humanitarian projects and not a "cash out" bad deal. Simply a hundred million for something worth a trillion was a real bad business deal.

Thoroughly frosted and rejected, at this point Dal Bosco gets involved with **David Sale** of the fraudulent **Office of International Treasury Control (OITC)**, together with **Dr. Ray Dam** as OITC's Chairman.

This resulted in a written agreement signed on 16 March 2010 between Dal Bosco and OITC that basically laid out that Dal Bosco and the OITC intended to steal the Dragon Family assets using the OITC's fake authority and to cash the certificates with the U.N. with the help of **Giancarlo Bruno**.

Dal Bosco was obviously hungry for “quick cash” and so were the crocks that he brought to the table. It was feeding time and Dal Bosco had the glitter papers in his hands.

Giancarlo Bruno

The Chase is ON! Time to Retrieve

By May 2010 Neil Keenan reiterated to Dal Bosco that he was currently working on placing the Japanese Bonds only in a legally recognized PPP's through Mr. Wales in Geneva.

At the same time Keenan didn't tell him that he was actually working to place the Federal Reserve Notes into another program which would assist the United States, Asia and certain European countries.

Neil Keenan indicated clearly to Dal Bosco his hopes of coordinating a transaction involving three European countries and expressed his desire that Dal Bosco participate in the venture. This created a “one in the hand, two in the bush” choice for Dal Bosco.

Dal Bosco again reiterated the aforementioned offer from the U.N. to buy the remaining FRNs for \$ 100 Million, but Keenan again rejected the notion and warned that the U.N. was acting unlawfully with respect to its planned disposition of the 1934 Notes.

Neil Keenan stated to Dal Bosco the transaction he was working on was “*to help countries, not the UN, OITC, the World Economic Forum or Bruno*” and that “returns” would be greater for everyone involved and that the Dragon Family would receive a substantial return from the humanitarian projects that Neil was arranging.

Thereafter these various people and organizations entered into a range of criminal schemes and enterprises that were prevalent at that time. Neil Keenan later found that Dal Bosco would betray, violate and breach all of his previously acknowledged fiduciary duties to Neil Keenan and the Dragon Family by stealing the certificates and converting possession of them for his own selfish, criminal and personal financial gain.

Neil Keenan started to become suspicious as he observed that Dal Bosco had consciously decided to change apartments in Rome in an attempt to confuse Keenan as to his whereabouts and, as it transpired, in order to avoid contact and ultimately disappear.

So in June 2010 Neil advised Dal Bosco directly that his associate, Mr. Joseph Bendana, an American citizen, would be traveling to Geneva to retrieve all the bonds and notes in order that they were now needed for Neil’s intended transactions. This, of course, threw a monkey wrench into Dal Bosco’s plot and he needed to act quickly.

Strangely, at or about the time that Dal Bosco was advised by Neil Keenan that Bendana would be flying to Geneva to retrieve the Bonds and Notes, the OITC “served electronically” a “**Cease And Desist**” Order (OITC Order) against Keenan and associates.

This Cease and Desist purportedly was issued by “**His Excellency, Dr. Ray C. Dam,**” the **International Treasury Controller**, a position that Dam was supposedly appointed to under a United Nations Charter.

On June 9, 2010, Dal Bosco contacted Neil Keenan and expressed his own personal fear of being associated with the OITC order, and his inability to make a decision regarding the Bonds and Notes.

That was a phony excuse to buy time and to hold onto the documents until such time as the OITC claims could be legally clarified as to actual ownership. This was a lie to stall Neil and buy more time to close a deal.

Neil assured Dal Bosco that he had done nothing wrong and that OITC was a fraudulent entity which, despite its outward representation, enjoyed no protection, sanction, affiliation or approval from the UN, the Federal Reserve Board, or the BIS, and that any licensing it might once have enjoyed had been nullified several years prior.

Neil Keenan told Dal Bosco to ignore the OITC order pointing out that Dal Bosco was not even named in the document (lawsuit). Neil did inquire with Dal Bosco as to how the OITC obtained his email address. Dal Bosco denied any knowledge even though Keenan knew Dal Bosco had been in contact with OITC on previous occasions.

On June 10, the OITC sent a letter via email to Neil Keenan wherein, inter alia, it "strongly advised Keenan not to ignore the OITC order". How did they know so fast what Neil had said to Dal Bosco?

On June 14th, Joseph Bendana received a telephone call from Dal Bosco and after discussing with him his authorizations, he made arrangements to meet with Dal Bosco in Geneva the next day to retrieve the Dragon Family assets.

On June 15th, Bendana flew to Geneva for the sole purpose of retrieving the Bonds and Notes from the hands of Dal Bosco, or from the legal safekeeping vault where Dal Bosco deposited them, so that he could arrange their return to Neil Keenan.

As it transpired, Dal Bosco never contacted or met with Bendana at the appointed time and location. After spending three days in Geneva, Bendana left empty handed and went to meet Neil at his home to discuss what transpired.

During his stay at Neil's house, while having dinner with Neil, Bendana expressed his regret that he had divulged his itinerary to Dal Bosco and that he was sure Dal Bosco was planning to steal the documents. Bendana later returned to the United States on July 4, 2010.

Eventually, Dal Bosco told Neil Keenan "**he would not return the Bonds and Notes**" and that he "should get on with his life." No need to repeat that stupidity.

Dal Bosco's actions caused substantial economic harm to Keenan as the European group Keenan had been dealing with had made all the necessary financial arrangements in order to invest \$14 Billion dollars, in the form of a cashier's check, in return for the use of the FRN's which, as described, comprised the major portion of the financial instruments.

Neil and the Dragon Family were to receive a 50% participation in the PPP that was arranged.

A few days after Bendana returned home, Dal Bosco called him to state that he might reconsider returning the Notes and Bonds and to "wait a little longer." Another stall.

Dragon Family Options – Day of Choice

In late June, Neil spoke with Count Albert and the Dragon Family concerning the Dal Bosco theft. The Family informed Neil not to worry about the stolen certificates because the financial instruments could be cancelled out and reissued in 6-months and thus returned to Neil to be monetized and placed into a PPP.

But they made it clear that if Keenan chose to accept the reissued instruments, **he would not be able to go after the Global Collateral Accounts (GCA)**. Whichever way he chose, he would have to finance his efforts himself because no help would come from the Dragon Family.

Keenan realized and understood now what securing the Global Collateral Accounts represented for humanity if he chose not to get the financial instruments reissued.

His first reason not to choose reissue was because the Bonds and Notes were stolen under his watch and therefore he felt it was his duty to go after those who stole them from him. He was MAD!

Secondly, Keenan now realized how important the Global Collateral Accounts are for humanitarian purposes and for helping all of mankind. Neil told the Dragon Family he was going to fight to retrieve the stolen certificates and then go after the larger Global Collateral Accounts assets for Humanity.

It was later that a representative of the IMF banking Cabal would also confirm with Keenan that if They were to let him cash-out on the certificates, he would not be allowed to go after the Global Collateral Accounts.

In retrospect, Neil made the right choice to go after both the perpetrators of the theft and the recovery of the Global Collateral Accounts assets that belong to the Dragon Family.

That was the moment the financial World changed.

Time for Affirmative Legal Action

The summer of 2010 was a time to throw legal hammers at Dal Bosco and Neil, Yamaguchi and Bandana all issued Cease and Desist Orders and made filings with Interpol together with letters to Ban Ki-moon at the UN and Bruno at the World Economic Forum, as well as, notices to Dr. Ray Dam and Sale at OITC. Everyone got legal notices. It was a busy time for Neil and Team.

Neil had the best legal advisers in Europe and the US helping him compile the cases against all who were involved in this theft, and as they dug deeper, more names came out.

Dal Bosco's "UN friends" in Italy even contacted Neil and advised him that they did not want Mr. Yamaguchi of the Dragon Family involved in this transaction. Also Neil was not even to receive one cent for the Dragon Family. This was then reported to Ban Ki-moon at the UN by Neil and Joe Bandana.

Bruno was also singled out in a letter sent to him by Neil that clearly stated that it was Bruno who made the initial \$100 million offer to Dal Bosco from Bruno's Italian UN contacts. It also appears that Dal Bosco knew the "background" of these Italian UN officials.

A Murder!

On July 31, 2010 Neil Keenan sent a registered letter Ban Ki-moon but never received a direct response. Subsequently, Mr. Bendana spoke on at least two occasions with Ban Ki-moon during which Ban Ki-moon stated, among other things, that “this goes much higher than me.”

Ban Ki-moon - Secretary General of the United Nations 2004 - 2016

Mr. Bendana relayed this information to Neil and added: *“I cannot wait to see you buddy. Wait until you hear the information Ban Ki-moon told me.”*

Mr. Bendana, who received the return receipt requested from the UN on September 2, 2010, was found dead in his apartment in New Jersey on the morning of September 4, 2010.

This was just days before Bendana was to depart for a visit with Neil Keenan and provide him with all the information he had received from his conversations with Ban Ki-moon, and a few days after Bendana had received a telephone call from Dal Bosco threatening his physical safety if he continued pursuing legal claims on behalf of Keenan.

Dal Bosco would never have been bold enough to make such threats if he did not have the backing of the P2 Lodge (Leo Zagami), the Vatican and the Italian Mafia (inside the UN).

Neil lost a good friend that day, but that steeled his resolve to never let go.

OITC Resurfaces With the Truth

In November 2010 Neil Keenan received written communications from **Keith F. Scott**, formerly associated with the OITC as Chief of Cabinet of OITC, Special Envoy and Executor for His Excellency Dr. Ray C. Dam and later, Chief of Council of the Cabinet.

Scott directly contradicted the June 2010 communications from **David Sale**, and stated clearly that Neil's Bonds and Notes **are the rightful property of the Dragon Family**, who are legally entitled to them and NOT the OITC as claimed.

According to Scott, he informed Dr. Ray Dam and witnessed Dam's reaction in anger as Dam explained to Scott that he had been aware that David Sale had access to the bonds and had sent him **scanned copies**, which Dam proceeded to show Scott. (You know by now who sent the scans of the original documents and it was not Neil.)

Dam advised Scott that he had determined that the bonds were authentic based upon his experience and review of records which he had historically kept in what he referred to as a **"Book of Codes," a book detailing lists of all records and the true owners of International Combined Accounts (blocked accounts of the International Parent Registration Accounts ("IPRA"))**. (This will come in again later.)

According to Scott, the Dragon Family, through various secret arrangements, holds vast assets which he substantiated to Keenan by presenting "copies of the official secret bank documents that confirm the amount of gold delivered by the Dragon Family to Swiss banks and the BIS."

Imagine Neil Keenan holding such possessions within his position as Amanah? A wrecking ball indeed.

Scott maintained that the Dragon Family is the known Depositor(s) of the gold, as well as, other bullion and assets in private bank accounts held in Swiss banks, and that the Dragon Family instruments were in fact obligations of the Federal Reserve System against the assets blocked in the Dragon Family owned accounts (part of the "IPRA" which is essentially another name for the Global Collateral Accounts).

David Sale has admitted in Internet postings, that it is "verifiable" through the OITC's own records that the first-ever written communications from Dal Bosco were within the first week of February 2010.

Sale has also published a few relevant sections of the Agreement dated March 2010 between Dal Bosco and OITC, and "duly executed by Dam." It has been admitted to a global audience by Sale and confirmed Keenan's worst suspicions that this was clearly a plotted "theft" in collusion with the OITC and its officers.

Back to Berlusconi

About mid-December, Neil Keenan learned that in the beginning of September 2008, Brazilian financier, **Carlo Alfredo Nascimento da Silva**, with the assistance of his attorney, **Ruben Mariani**, were planning to purchase Banca Commerciale Lugano, Lugano CH (Switzerland) (“Banca Commerciale”) for and behalf of **Silvo Berlusconi, ex-Prime Minister of Italy**.

The plan was to use the Banca Commerciale to launder finances and deposit stolen assets, bonds and notes into Banca Commerciale or any other Swiss bank to establish credit lines and then enter into PPP trading programs (primarily in UN 20-year sovereign programs, which would not be for the people or the country **but for the benefit of Berlusconi alone**).

This plan came to be aided and abetted by **Dal Bosco, Berlusconi**, and **Bruno**, as well as, the retired Colonel of the Italian Financial Police, **Mauricio Fanelli, Italian attorney Pierre Luigi Manzione, and others**.

The stolen assets to be deposited included not only all the Dragon Family Chiasso instruments seized in 2009 and still being held by The Italian Financial Police, but also Neil’s instruments stolen by Dal Bosco in 2010, and continuously held under his custody or control.

This information further confirms the recollection and testimony of Marinov’s discussion (speaker telephone conference) with Dal Bosco and Bruno in Geneva in May 2010.

This legally confirmed Grand Theft, collusion, conspiracy, abetment, fraud and money laundering intent on an international scale of those involved.

Neil later in a written letter informed Carlo da Silva concerning this plot. Carlo da Silva is one of the richest men in the world and quickly thereafter saw that he was being duped and thus pulled out of the transaction. He has been a good friend of Neil ever since.

Thus from December 2010 till November 2011, Neil and his team of international lawyers began the arduous task of compiling the legal case against all the TRAITORS involved. This was a lengthy effort of collecting facts, affidavits, testimonies, notarized documents and much more all needed for criminal filings and possible convictions.

The fact that this legal investigation was underway, the word spread rapidly through the international financial grapevine. From Zurich to London to New York Neil Keenan's name was whispered as each new name was added to the legal list. Nothing like this had ever been done before, so eyes were opened and ears were to the ground.

The investigations led Neils legal team throughout Switzerland and Italy in their quest to find those involved in the detainment of Yamaguchi and Watanabe.

During their search they learned that Yamaguchi and Watanabe were never indicted or charged with a crime. It was not in any of the Italian Police or Courts data bases. This means all three of them.

The Clerks in the courts either in Como, Milan or Rome all basically attempted to pass things on to the international division which would bring in Interpol. When the Clerk in Roma was contacted by our three attorneys requesting information on the case they were told to go away and never return or else.

The feedback coming to us was amazing.

Even before this we found that the newspaper giving all the misinformation throughout Italy which was stationed in Como was owned by the Berlusconi family. Wow imagine this. This media outlet made it clear they were to be tried and then even sentenced to jail. Not any such thing happened.

To top this all off Clerks threatening Neil's attorneys is quite amazing itself. They had no plans on returning after being treated so harshly.

To make things clear no one was going to give them anything relating to the case. Despite the fact that the Italian Financial Police had stated from day one the notes were legal.

What happened in the courtroom which led to their release after being held for one night was ridiculous with Yamaguchi telling the Judge if they continued to hold them their family, the Golden Dragon Family, would bankrupt their nation within days.

The Judge had a color change in his underwear and called his clerks asking what this was all about and not willing to take any chances decided the best bet was to release them. Which he did.

The “Monaco Accords”

In the first half of 2011 Neil had spent a lot of time in Zurich with his Swiss Banker friends discussing the theft of his Bonds, but more in depth discussions about the Dragon Families and their relationships to the Global Collateral Accounts, the Bank of International Settlements (BIS), and specifically how the Western financial system worked to steal money.

It was at this point that he realized how fraudulent the fiat money system was and how corrupt Western banking had become, particularly with respect to the use and abuse of “other people’s money” and in particular Dragon Family deposits. This rankled him to see

such disregard and disrespect for humanity that he finally got to the point that he had “ENOUGH”.

So in the Spring of 2011, Neil together with his trusted Swiss Banker friends started discussing “how to break the Western financial stranglehold.” Obviously the East had the vast majority of “real” money and financial assets that were being blocked by the Western Rothschild’s Central Banking Cartel headed by the US Federal Reserve Bank.

The Conspiracy to Rule the World: #22 [The Federal Reserve System](#)

The only viable solution would be to circumvent the Western system with a new Eastern alternative.

The Swiss Banks and Bankers liked that idea as it meant that they would most likely have direct access to Asian wealth and the profitable use and abuse thereof, particularly since they could see that historically “fiat” paper always comes to an end. Neil, with his Dragon Family connections, thus became a Swiss champion and possible financial savior.

August 2011 - The “Monaco Accords”

Neil Keenan and a very powerful political associate arranged a secret meeting of 57 global finance ministers (none from any Western nation) aboard a yacht in Monaco for the purpose of **setting up a new worldwide, asset-backed financial system.**

Word of the gathering reached the Rockefellers, the pre-eminent U.S. clan of that oligarchy, who dispatched Senator Jay Rockefeller to essentially “crash” the party as an uninvited guest. He was physically blocked at the gangplank by Neil Keenan. When Rockefeller demanded “*Don’t you know who I am?*” Keenan responded, “*Yes, you’re exactly the person we don’t want on this boat.*”

Jay Rockefeller

What was never accurately reported is that as Jay Rockefeller tried to push past Neil, Neil gave him a shoulder nudge that knocked Rockefeller off balance and almost into the drink. Neil quickly grabbed him and steadied him back on the dock, and escorted him away. That is a move Neil still regrets, but a soggy wet Rockefeller would have brought too much negative press.

After Rockefeller’s unceremonious ejection, the yacht set sail and was then buzzed by unmarked Blackhawk helicopters before French fighter jets gave a warning pass overhead, whereupon the helicopters retreated. This was a show of force, but the French really didn’t want 57 nations demanding retaliation.

Within several months, the agreement realized from that meeting, the “Monaco Accords,” was made official by its co-hosts, and that document was signed by over 180 countries by the end of the year.

This was an unprecedented collective step toward wresting control from the criminal planetary financial domination by the West. Out of this was born the BRICS alliance, the

Asian International Investment Bank (AIIB) and the CIPS monetary financial transfer system. The Monaco Alliance, however, will apparently prove to be just a rerun of the European Union because both lack access to the Global Collateral Accounts and the “real” asset backing of the Asian Dragon Families.

This was a major strategic move for Neil Keenan as now the gauntlet had been thrown down and the war of the Financial Worlds was declared. Not only was he now a formidable foe but a champion of the Dragon Families.

He may have been initially seen as a *Don Quixote* attacking Western financial windmills, but with the backing of 180 countries of the world, he became the PLAYER.

Many articles have been written about the Monaco Accords and it is interesting to see how this one meeting has impacted the entire World.

The Trillion Dollar Lawsuit

22 / 11 / 11

22 November 2011 is a historic milestone. It is the day Neil Francis Keenan filed his unprecedented *Trillion Dollar Lawsuit* in the US District Court in Manhattan, NY, to initiate the legal return plus damages of his Bonds and Notes which had been stolen. The legal suit named as Defendants Daniel Dal Bosco, the OITC and its officers, the Italian Republic and its Financial Police, Berlusconi, Bruno of WEF / WEF USA, and Ban Ki Moon, the United Nations and its Italian officials, and many others.

Again—this battle had to be fought through multiple, nonlethal means, including hacking and deleting bank accounts, filing key lawsuits, exposing corruption, blocking the inflow of money, and threatening key members with public exposure, thus forcing them to peacefully step down and resign. An international businessman named Neil Keenan filed this groundbreaking lawsuit on November 23, 2011—on behalf of the Asian members of the alliance. This was a direct attack against financial tyranny, in the interest of peace and freedom for everyone—and was deliberately timed to coincide with the forty-eight-year anniversary of Kennedy's assassination. I wrote a detailed criticism of this lawsuit three days after it appeared and was very surprised when the alliance contacted me directly to provide further evidence. One thing the alliance told me was that Kennedy's move to print silver certificates, outside of Federal Reserve control, was planned out with Indonesian president Sukarno to help restore the US Constitution, and was apparently the main reason Kennedy was assassinated in 1963.

Basin... fascinating inside infor-

David Wilcock wrote about the Trillion Dollar Lawsuit in his New York Times bestseller book "The Synchronicity Key"

This was one of the largest lawsuits ever publicly announced and it sent shockwaves through the Western Cabal's financial community. There had never been such an attack like this ever before. It shook the global financial foundations and started the expose of the inner workings of the corrupt Western banking system.

Couple this with the **Monaco Accords** and you see how Neil delivered a double whammy. This delivered the message that Keenan is a force to be reckoned with and the financial community had better wake-up to what the financial Elite were really doing behind everyone's back.

This is the legal action that opened the door to the hidden room and let a bright light shine in.

Western Banksters and their Cabal institutions had never been attacked so blatantly in public before and certainly not in the heart of Wall Street and at the US New York Federal Reserve Bank!

You could literally hear the gasps on Wall Street. Who would dare do such a thing?!

Soon the whole financial world and the public knew it was Neil Keenan.

Financial Humpty Dumpty had been cracked...

Per his legal advice, Keenan withdrew the case without prejudice. One reason why: The original Judge Holwell was replaced with Judge Fulmer whose brother was an economic advisor to Obama.

Fulmer was made judge just to handle this case but was never a judge until this point and time. As the case awaits re-filing with substantial new evidence, jurisdiction remains a major issue to be determined.

Neil Keenan was told he cannot file this anywhere other than in Judge Fulmer's courtroom as per his directive and he is obviously prejudiced and biased and should be secluded.

Moving On To Indonesia

Keenan Agreement with Dr. Edy Seno Soekanto

After successfully filing *his Trillion Dollar Lawsuit*, Neil quietly disappeared to Indonesia. He certainly did not want to be hounded by reporters and he had much more important things to do.

So in late November, Neil was quietly moving ahead on other fronts. His objective on this trip was to meet with **Dr. Edy Seno Soekanto**, the person appointed by the late President Soekarno as the legal administrator who was sworn in to be the ***“legal heir of record as stated”*** in the last will and testament of the late legal holder of the ***Family Inheritance***

Guarantee, as attached to **all the gold deposits**. This was ordered by President Sukarno between 1948 and 1968 when he was granted such Inheritance Guarantee as payment for his services to the World.

As a result of this meeting Neil Keenan was issued a deed of **Authorization and Agreement** from Dr. Edy Seno Soekanto which gave him certain authority with respect to historic gold and other deposits held in Indonesia.

Dr. Edy Seno on the right

Dr. Soekanto iterated that President Sukarno had designated to him the collection all those funds known as the **Family Inheritance Guarantee** and the accumulated interest thereon, and that he has **“been acknowledged by the depository bank, as evidenced by the bank instruments, books, records and ledgers and codes in his possession, as the sole recognized heir to.”**

Under this Agreement, and because of his “severe and long-term chronic illness,” Dr. Soekanto granted Neil Keenan the authority to act as one of his **Attorneys in Fact** **“to act jointly and/or severally and to undertake all means and methods to recover the funds owing to him and the People of Indonesia.”**

Dr. Soekanto further agreed and confirmed that he also holds the **“full secret Book of Codes,” “The Maklumat Book”** and the **“Ledgers and all records of the accounts”** as delivered to him and that, upon their request, he will **“deliver or cause delivery of the originals of such books for presentment to any court determined to have such jurisdiction”** and **“for any other purpose”** Keenan may require or need for the Books.

Neil with Dr. Edy Seno

Neil Keenan has custody of **certified copies** of the said **Book of Codes, The Maklumat Book and Ledgers**, and with his **Power Of Attorney**, he has authorization to use them when needed. Neil has the certified documents and copies given to others all placed for safekeeping under Neil’s direction.

The Contents of the Books and Ledgers

These Books and Ledgers define the information that is held in the Federal Reserve screen system. They contain the secret code cyphers and data on legal decisions, treaties and other arrangements.

They provide information pertaining to all the accounts and sub-accounts that contain the gold and other assets, as well as, information pertaining to the financial instruments issued in gold. They specify and provide the factual information as to what is in the Global Collateral Accounts, such as who owns the gold and the source of its ownership.

This Agreement and authorization by Edy Seno establishes Neil Keenan as a defender of the wealth in and of Indonesia and Asia and gives him the weapons and tools to be able to go after the corruption and theft being perpetrated by Western Banksters. With these tools he can "shut them down." And he will.

2012 A Year of Conquering

In early 2012 and with Edy Soekanto's Books and appointment, Neil Keenan strategically takes up part-time residence in Jakarta, Indonesia and begins planning and strategizing his goal of freeing the Global Collateral Accounts and returning control of this wealth back to its rightful Owners who have not been given access to and even banned from using them since they were originally deposited.

By March Keenan had been caught up to by reporters and truth seekers all asking the same questions about the **Monaco Accords** and **Trillion Dollar Lawsuit**. Then one day a blogger, Jean Haines, contacted him and offered him to use her website to help get his message out.

Neil is not too computer savvy but he takes this offered opportunity and begins interacting with her website's readers. Neil is grateful for Jean's help in launching him into the global Internet which has since been a useful tool in keeping the World informed of his activities.

Leaning on Liens

In May 2012, Neil Keenan launched another fearless attack on the Western financial establishment. He files legal “Liens” against the G7 Central Banks, the European Central Bank and the twelve Banks of the U S Federal Reserve System. That was un-precedented.

Furthermore, these new liens were filed within the **Admiralty Law** system (**Law of the Sea** or **Commercial Law**), which is extremely complicated internationally and mysterious in legalese definitions. These liens, however, constitute legal arrest warrants for the conspirators operating under the (Rothschild’s controlled) Federal Reserve central banking control system in the US and G7 countries.

[The House of Rothschild](#)

Adding to this entire criminal fraud were phony unregistered Euros printed by the European Central Bank (ECB) in Neil’s possession stacked on pallets ceiling high in warehouses in Indonesia. These notes are an outright perpetrated fraud and Neil has all the “answers” back to him from their system.

These Euro currencies have no value but were created solely as payment for the interest on the Indonesian Gold that the ECB leased from the Global Accounts. The ECB simply printed un-registered worthless colored paper to pay off their debt. That is FRAUD.

Once submitted as frauds, the European Central Bank could be out of business. Keenan intends to bring back millions of Euros and let the ECB accept them and validate them or get out of business. This then would mean the end of the atrocity called the European Commission headed by some Eastern European mummies from Hungary (Soros' Boys) and their New World Order socialist agenda.

Keenan Goes Hunting and Brings Down A Few at the Top

Throughout the remainder of 2012, Neil had some fun flexing his newly established political and financial muscle. During this time he made three successful hunting trips, targeting major European figures of the New World Order.

The first that Neil took aim at was **Nicolas Sarkozy**, the former President of France who was running for re-election. Sarkozy was a well known underworld operative and NWO Globalist that would surely stand in Neil's way.

Neil found out that Sarkozy was supplying the Opposition (Marine Le Pen) with the information that established, without a doubt, that Sarkozy was a Globalist, which the Opposition made this fact perfectly clear during his unsuccessful run for office. Sarkozy lost and he fell on his own malicious sword never to rise again. One down.

Nicolas Sarkozy - Former President of France

The second target was obviously Silvio Berlusconi, former President of Italy as he had played a major role in the theft of Neil's Bonds.

Berlusconi, along with his brother, also had their hands in the Chiasso scam which was nothing more than a successful attempt to steal the notes from Yamaguchi and Watanabe.

Silvio Berlusconi - Former Prime Minister of Italy

Neil filed a major legal action against Berlusconi and the details of the case were used by Berlusconi's political Opponents to dethrone him from Italian government for good.

However, when the matter was brought before the Italian Courts Berlusconi's lawyers switched the charges to that of having sex with a minor so Berlusconi only got 7-years in jail instead of 20-years for financial theft and fraud (which the Italian Government wanted covered up perhaps hoping that some day they might get a kickback from Berlusconi's stolen Notes).

So down went a pedophile thief and his run for re-election protection was finished leaving him banned from ever running for office again. Number 2 shot down.

Neil's third target was ***Queen Beatrix of the Netherlands*** who is the daughter of Queen Juliana and Prince Bernard, who was born in Germany, became a member of the "Reiter-SS" and joined the Nazi party. In 1954 Prince Bernard was the co-founder of the international [**Bilderberg Group**](#).

This was a major Neo-Nazi and Elitist Cabal target.

Former Queen Beatrix of The Netherlands

Neil got in touch with Queen Beatrix to advise that her country could get 2% (and 3% for her) that was promised to her mother (Queen Juliana) after each and every Global Collateral Account deal made from a specific collateral deposit account held in Japanese banks. She was surprised and was not even aware of this Global deal set aside by way of her mother for her and her country.

Queen Beatrix, rather than appealing to get the 2% and 3% on the Global deals set aside, sent her son to Japan to see if he could **steal all of the assets deposited** in Japan and retrieve this Global Agreement. (The assets actually belonged to the Dragon Family and were invested by them, but the profits were shared and granted to Queen Juliana and her country for humanitarian works.)

At the same time **Queen Elizabeth II of England** had her intelligence people listening in on Queen Beatrix's arrangements (oh my, Royal intrigue). Elizabeth then decided to send her son Charles to Japan to try to outflank Queen Beatrix's son and steal all of the Global assets held in Japan at the **Bank of Tokyo** and **Bank of Mitsubishi**.

Neil, of course, informed the Dragon Family as to what was going on and they simply shut down these Global asset accounts, which meant that neither **Queen Beatrix** nor **Queen Elizabeth II** would get any access whatsoever forever. It was stopped.

The threat of exposure of this and other nefarious thefts and illegal dealings eventually resulted in Queen Beatrix abdicating her throne. Another kill shot by Neil.

These hunting expeditions clearly established Neil Keenan as a fearless and major tactical opponent of the Established Order and that he took no prisoners. Three trophy heads were on his wall and more were to come.

Spies and Guys

Following the de-throning of Queen B and exposures of other prominent Europeans, Neil became aware of burly white guys with bulges in their armpits and dark glasses pointed in his direction whenever he left his Jakarta hotel. It was time for some fun!

Obviously he was being watched. And it was by a professional team sent to keep track of Neil's movements and perhaps even more. There were spotters in nearby apartments facing his hotel, rotating agents sitting in the lobby lounge, others in restaurants and parking lots or just loitering around on stakeouts.

Neil and Inchul had fun identifying and spotting them individually, watching their movements and shift changes, seeing how they communicated whenever Neil made a move, and generally setting up spoiling moves that would "out them" and ruin their surveillance operations. It was a "spy vs spy" game on!

Of course, Neil went about his normal routines with all dark glasses and scopes following him, so that left Inchul and other local friends to do the counter-spy job of identifying and recording the European spies and their network.

Neil and his team were having a ball watching the watchers. And Neil would purposely set his team in place and then conduct a pre-planned foray route that would cause the spies to walk right by Neil's team members and thus expose themselves time and time again.

After about a week of this game playing, Neil had enough information of who the spies were, where they were staying, how many were on their team and how they were positioned. Now it was time to spring the TRAP!

The PLAN was for Neil and Inchul to leave the hotel, go up the street to Starbucks in the Kota Kasablanka Mall. They would then draw the Guys out to follow them there, let them get settled in their surveillance positions while Neil and Inchul sipped their latte coffees.

The Plan was to have Inchul leave first then go up to the 2nd floor to a specific location overlooking the Starbuck's entrance lobby and wait there. Since he was not the target of interest, Inchul just got up and walked right by one Guy sitting at a table in the store and another at the entrance. No movements.

Once he was at the 2nd floor he was to call Neil and let him know if he had been followed and where he had spotted spies lurking along the way, if any. Inchul did just that and reported that he was in position and had not been followed. Now it was SHOWTIME.

Neil surveyed Starbucks and the Mall lobby over the rim of his coffee cup.. Sure enough the big burly Guy was sitting there at a table deeply engrossed in his laptop, another was at the door and a third was outside but not nearby. So Neil gets up, strolls over to the big Guy's table and stands next to him, then **SLAPS the table HARD** and says, "**GOTCHA!**"

Startled, the big Guy looks up and sees Neil. He is stunned and just sits there with his mouth wide open. Neil turns and heads out the door and into the Mall. The big Guy then packs his computer and calls his buddies that **Neil is on the move**, headed for somewhere in the Mall. Everyone meet in front of Starbucks... **NOW!**

Neil knows this Mall like the back of his hand and a few quick moves and he is at Inchul's side overlooking Starbucks and the lobby entrance. A minute later three white guys come together, get instructions and then scatter in different directions to canvas the Mall in order to get eyes on Neil again.

Neil and Inchul are laughing. They move from railing to railing, watching these Guys running from store to store frantically searching but never looking up. Neil was laughing his head off watching these rats scurrying around.

But soon it was time to escape back to their hotel.

At the far end of the Mall was a stairwell that Neil often used as a shortcut. These stairs opened at street level. Neil and Inchul hurried over there, then down to ground level, passed two office buildings, then along the side of the second building, down an alleyway and over a small bridge, then into a bank parking lot, out a side door, then along the back side of the neighboring hotel, and through a fence door that led to the back door of their hotel. Neil knew his way around this part of town.

Once at the hotel, Neil met his friend, the Head of Hotel Security and explained the situation to him and that a group of dangerous European men would soon be coming to the hotel looking for Neil. He didn't have to say much more as the Head of Hotel Security knew what to do.

The Head of Hotel Security did intercept these Guys, told them that they have been recorded on hotel security cameras, that security staff had followed them and knew who they were, where they stayed and that **THEY HAD BEEN MADE**. They were told to leave the hotel and Indonesia immediately and never come back or police reports and Immigration would be notified. They left with their tails between their legs... never to return.

Neil said, "DANG! I was having so much fun too!"

But he wasn't too sad to see them go, especially when he learned later that there were actually twelve of the Spies and Guys and it was more than a surveillance mission.

November 2012: Neil Has a Ceremony

While still operating from Jakarta in late November, Neil was approached for a meeting with a group of Elders and their lawyers.

These were senior Dragon Family Elders who first expressed their gratitude for the impressive work that Neil had been performing on his own and at his own expense to defend the assets of the Family while keeping the Family essentially out of the picture.

This meeting included a ceremonial blessing for spiritual protection, the first such initiation for Neil to the higher spiritual realms that operate at the highest levels of the Global power structure. Neil being a neophyte to such spiritualism just sat there quite oblivious to what was actually taking place, little knowing that this was his first step along this new path.

A New Year of Keenan Exposures 2013

The new year of 2013 began with another fight with Dr. Ray Dam, his minions and the OITC.

By April Keenan's attack became public as he exposed the truth and fallaciousness of OITC being the sole ***Claimants of the Global Collateral Accounts*** as appointed by the West.

OITC claimed UN protection. But the OITC and its officers were co-conspirators of the notes stolen by Daniele Dal Bosco. Was Dal Bosco conned by these con artists himself?

At this time David Sale proclaimed himself as Chairman of OITC and attempted to move OITC accounts into the World Economic Forum banks with promises of a job and security. Ray Dam was in jail in Cambodia (thanks to Neil) at the time but he never signed anything over to Sale. Neil also discovered that Kathy Mattenson held the Power of Attorney and everything else belonging to the OITC.

Neil Keenan was responsible for Ray Dams' imprisonment in Cambodia for 9 months based on international fraud charges based on documents Neil provided to the Cambodian government. Later Neil was informed that Ray Dam was seriously ill and had been moved to a ground floor hospital room. For those in the know, that meant that Dam was about to be terminated.

Neil decided that Dam did not deserve such treatment and proceeded to get him out of the hospital as soon as possible. So he called the US Ambassador in Cambodia and requested that she immediately rescue Ray Dam as he was an American citizen and that he would be killed there if she didn't act quickly.

The Ambassador was reluctant at first and until Neil told her that he was well aware that she was Hillary Clinton's college roommate and what really went on behind closed doors. The next morning the Ambassador personally called the hospital. Neil was then able to have his friends remove Ray Dam and send him back to the States.

It could have been David Sale and David Crayford imprisoned as well, had they been in Cambodia at the time of Dam's arrest. Without a legitimate OITC authority, Sale's attempt to transfer OITC's false claim of ownership of the OITC Corporation Global Accounts to Bruno at the World Economic Forum (WEF) or to Bruno's associates as the deal was now shot down in flames.

From the beginning Keenan knew that the Vatican, the UN, the WEF, OITC and other were involved along with Berlusconi in this theft. Keenan had opportunities to walk away with a ton of money but refused to bend.

Keenan and his Indonesian team released this video report where they visit the supposed Indonesian office of the OITC, only to be told that **no such organization had ever had an office in that building (recorded in June 2013)**.

Keenan Exposes OPPT / SwissIndo

In early 2013 a new group of global interlopers appeared on the scene. This was the One People's Public Trust (OPPT) and their partner in crime SwissIndo with their fabricated claims of ownership of the World and of the SwissIndo Swiss bank accounts backing them. This was another set-up challenge to control the Global Collateral Accounts that Neil had to squelch and nip in the bud.

On April 22, 2013 Neil Keenan recorded an interview in Jakarta, Indonesia, in which he revealed just what a dangerous game the One People's Public Trust (OPPT) was attempting to play with people's lives and freedom – not only in Indonesia, but around the world.

It is, however, a game that has been shut down, as Keenan tells how OPPT went from one Global Accounts scammer to another (Adnan Sahkli, White Spiritual Wonder Boy, and now UN SwissIndo) hoping to find someone to fund their totalitarian revolution – a phony movement that gives every appearance of being the bankster cabal's attempt to co-opt the real and profound global awakening that spells the end of their control.

In the video Neil Keenan exposed OPPT/SwissIndo and Paula Humfrey informs phony "elder" Apriyanto of SwissIndo that OPPT's **"Military Declaration" which they claimed "empowers the Indonesian Army to overthrow the "foreclosed" elected Indonesian government and calls for the arrest of all corporate or banking officials,"** but "nicely" of course.

Neil Keenan immediately notified Indonesian government and Swiss authorities concerning this call for insurrection and government overthrow and the fake claims and false documents being made and shown publicly by SwissIndo leaders throughout Indonesia.

Shortly thereafter OPPT principals disavowed any connection with death threats made personally to Neil Keenan which warned him to "lay off" OPPT. Undeterred, he went after them, concerned for others who also received threats.

One day later, Neil Keenan survived what his doctor diagnosed as a poisoning attempt (not food poisoning – poison). He survived only because he carries powerful anti-poison antidotes with him at all times due to previous attempts.

UN Swissindo was pretending to represent the money in the Global Accounts. And OPPT was pretending to represent humanity. Both of you are, in fact, empty-handed.

This has eventually resulted in the closure of OPPT and SwissIndo operations, arrests and the imprisonment of key figures involved. Another target hit dead center.

Following the earlier threats and poisoning incident, a second assassination attempt was made in July 2013. Neil Keenan’s team was the target of this assassination attempt in Jakarta.

The hotel suite that they were staying in was broken into in the middle of the night and the gas valve on the main tank was unscrewed so that the entire gas supply was released into the apartment.

The timely actions of Inchul, who woke in the middle of the night, smelled the overpowering gas aroma, found the sabotage, recognized the danger, and carefully opened the windows to clear out the apartment. The slightest spark would have been sufficient to blow the rooms sky-high, killing not only Inchul and Jo, but in all probability Mr. Keenan as well.

A while later a third assassination attempt was made while Neil and Jo were driving through traffic in Jakarta. A motorcycle pulled alongside their car and the rider pulled out a pistol and fired a shot at Neil, missing him and barely missing Jo as Neil had pulled him down.

Obviously this was a journey not for the faint hearted. Neil was sticking his finger on jugulars and those affected were not at all happy. But thankfully, Neil had some amazing spiritual protection.

Keenan Pot-Stirring Does Not Go Unnoticed

By September Neil’s entanglements and foils had reached the attention of the Elite Cabal in London. This had created serious consternations in the Elite financial community as those hidden were being exposed and the Dragon’s boy was continually slashing away at their hallowed halls.

Their solution was to invite Neil to come to London to meet the real decision-makers and discuss terms (a nice way to say “offer a bribe.”)

So Neil Keenan packs his bags and heads into the fray to meet with a Cabal chieftain and his stooges. Knowing he was actually being “tossed” into the lion’s den, Keenan neutralized the lions by revealing his own financial doomsday weapons against the Cabal.

In response to their proposed monetary offers, Keenan sounds the charge by throwing a bag of “**catnip**” across the big wooden table as he came into the Boardroom.

Evelyn de Rothschild

One thing was for certain was that the ten leading global financiers didn’t laugh when they found out it was ‘CATNIP”, but “chieftain,” ***Evelyn Rothschild***, **thought this was really funny.**

They were all there to make a deal with Neil Keenan, offering a large amount of money for him to go away, but Neil called it for what it was – catnip. Who has balls now?

They tried to have Keenan believe that they do not think of themselves as the Cabal yet said that they know that the Cabal is finished. Keenan emerged from his confrontation to warn us all that We must take back the keys to the kingdom (City of London, DC and the Vatican).

In the wake of support from the emerging global security force, backed by a new (and legitimate) global Human Rights Court, potential new allies have appeared on the scene, as many powerful Asian asset-holders made contact with Mr. Keenan to request his assistance in regaining control of their Deposited Accounts.

Keenan had already established a partnership with powerful Asian clans through his meetings with the influential **S.C. Chiang** in Hong Kong, who then opened channels for Mr. Keenan to Indonesian royal asset-holders. Now, additional depositor families are making contact.

Representatives from one of these groups informed Keenan that upward of “30 million” people a month in Asia have been following his efforts. He also received an invitation to travel to China to meet with a number of representatives to coordinate action on the Accounts.

Neil stated that he plans to keep his focus on Indonesia for the present, while opening conversations with additional asset holders throughout Asia.

World Geopolitical Intel Given to Keenan to Report

In October Neil received an urgent intelligence report that came direct from his top level Pentagon sources who asked him to reveal that President Obama had authorized the illegal transfer of three nuclear warheads with the intent to detonate these nuclear warheads in Charleston, South Carolina and elsewhere as an intended false flag attack in order to start WW3. This was ordered by Obama and by his handlers.

Four top Generals with the highest clearances in the United States stood up and refused these Presidential Orders. For saving millions of American lives they lost their jobs, ranks and pensions and support for their families.

These patriots stopped a plot. These patriots took the nuclear warheads 600 miles offshore, where they were dropped deep in the ocean and detonated there (seismic records show).

During this time Obama, Biden and others of their inner-circle were hunkered down in their super-bunker under the White House, expecting to come out and see over 20 million dead on the East coast, thereby allowing them to create their martial law over the country.

It was Neil Keenan that first revealed that the Nukes were never signed out of Fort Hood. President Obama had them stolen in the middle of the night and ordered the Generals to detonate them in the midst of Charleston. It was the Keenan team who brought light to the nuclear explosions off the coast of South Carolina, otherwise it is possible we would never have known about it.

Thank God this was prevented by the four top generals that Obama fired due to “alcohol and gambling charges” and for disobeying his orders. It was after this that Obama went to

This was contrary to Ms. Hudes statements that she "never worked with Keenan, and would not work with Keenan," but she did receive direct and important help from The Keenan Group, which gave her a crucial introduction to powerfully influential figures with the Asian Families who own the vast majority of Global Account assets.

Neil Keenan stood ready to help Ms. Hudes in her dealings with the World Bank until she attempted to circumvent Neil to work unilaterally for herself, attempting to cut out the man

who earned the Families' trust. This backfired badly, as the Family informed Keenan of the incident and then withdrew their offer to help Hudes.

That is another lesson people need to learn when dealing with Neil Keenan. No circumvention, back stabbing or lying... or the door will close in your face.

Globalist Agenda Exposed

By December the ramping up of the Globalist agenda became clear. The Cabal plot was to financially destabilize Europe with massive debt calls and confiscations as they had caused to happen in Greece and Cyprus thus pinning down Russia while the US would take on China.

This plot required money so the Cabal made attempts to steal Family gold from South Korea and made further threats towards other Asian countries.

The Rothschilds met with South Korean leaders in an attempt to steal 300,000 metric tons of gold from lawful depositors to finance the Cabal's planned war with China.

To this end, the USA Corporation VP Joseph Biden flew to South Korea to demand the surrender of the 300,000 metric tons of gold (Global Collateral Accounts assets rightfully belonging to the ancient and powerful "Dragon Family") to the bankster FED cabal, with the strings being pulled from the City of London, as they have been for two centuries.

Of course Neil Keenan publicly posted these plots and exposed the culprits involved, but this was not the last time attempts would be made to steal from South Korea. It was another good blocking move though.

U.S Cease and Desist Order

Following the thwarted theft of Family assets in South Korea, Neil decided to up the pressure on the Cabal Stooges, so in February 2014 Neil Keenan issues a formal "***Cease and Desist***" notice to the **United States Corporation and key offenders**. They are now on record.

But Neil is not satisfied with giving only one slap so he carries on **Exposing the Internal Revenue Service (IRS) as a Foreign Entity illegally operating in the US.**

The fact is that there is no Federal US law requiring the people of the United States to pay taxes to the IRS.

The U.S. Supreme Court has ruled that the Federal income tax violated the U.S. Constitution because it was a direct tax on individuals and not apportioned between the States, as required by the Constitution.

The Constitution protects individuals against the abuse of Federal government power by stripping from the Federal government the power to tax individuals, knowing the power to tax is the power to destroy.

Within the U.S. Tax Code System it clearly states that paying taxes is voluntary. Even the IRS Director in 2013 admitted that taxes are voluntary for the American people.

In March after filing his *Cease and Desist*, Neil survived a poisonous bite from a robotic “insect.” Thanks to Dr. Edward Group of the Global Healing Centre, who put together an anti-poison kit, this most likely saved Neil’s life.

He survived this “missed hit”, as well as, numerous other attempts on his life by poison and even a botched kidnapping attempt by cabal mercenaries during which he sustained a severe knee injury.

The mercenaries were met by forces from the Dragon Family and the white-hat Pentagon, and with the battles won, Keenan continued to forge ahead. The assassination attempts on Neil have become persistent, but we are taking all appropriate precautions. And they just can’t keep a good man down!

With people in political positions abusing their powers with impunity, it is necessary for all nations to be able to protect their citizenry and sovereignty from the fascist / Nazi (National Socialist) movements of this generation.

The way to do this is simple. As our mothers and fathers taught us, we just close the doors to unwanted visitors. We cannot and do not need to allow foreigners and enemies into our homes creating divisiveness and eventually taking over entirely in our stead.

With this simple premise Neil launched a “NO-FLY-ZONE” policy for sovereign nations to adopt thus banning unwanted people from entering their airspace. This policy is similar to other **NO Fly Black Lists** already being applied in some countries for persons that are “**non-grata**”.

In 2014 Sweden acted on Keenan’s incentive “No-Fly Zone” policy and refuses Israeli President Shimon Peres’s plane to cross into its airspace en route to Norway.

In 2015 Russia also put into place a “No-Fly Zone” over Syria against NATO, US, UK and Israeli forces, effectively blocking them from flying over Syrian airspace and conducting bombing missions.

In May Hades Rises Again

In May Neil rebuffs allegations by Karen Hudes where she claims that the Monaco Accord of August, 2011, was nothing but a money grab to gain control over Global Account gold. Since Keenan was actually there, he states that this meeting had nothing to do with gold and everything to do with the East severing financial ties with the West.

The bottom line is that Karen Hudes is a nobody. If there are still those who choose to see her as a brave whistleblower out to save humanity, then they are falling into an obvious trap.

In July Keenan Prevents Quadrillion Dollar Deal

Keenan never seems to stop and this time he prevented a **quadrillion dollar deal** between the **Sultan of Sulu, P2 Lodge and the Vatican**. The Vatican in collaboration with an entrusted Elder, The Sultan of Sulu, a guardian / holder of some of The Dragon Family Global Account assets, attempted to **steal fifteen (15) Quadrillion dollars** from different Asian Families and the Dragon Family. Their attempt was exposed and thwarted.

Had this transaction been allowed to take place, the Cabal's coffers would have been replenished and the results for humanity would have been disastrous.

The arrogance and recklessness of this attempt is indicative of a false sense of ownership or entitlement present on the part of some of those entrusted to protect those assets.

In some cases two and three generations have passed between the time of the original guardians or keepers of the assets, so it must now be reiterated to all the Elders ***“you cannot give away or sell what does not belong to you. Guardianship is not ownership!”***

Urgent Call From South Korea

After negating the Vatican deal, Neil Keenan received an **urgent call** from a **high-level contact** based in South Korea that exposed the joint US-Korea naval exercises currently taking place off the coast of South Korea which was nothing more than a sophisticated cover for the **biggest gold heist in history.**

In revealing the plot, Neil stopped the USS George Washington Aircraft carrier and the **250 thousand metric tons of gold** from being delivered to it by the South Korean President Park.

It was Keenan that warned the Dragon Family of the attempted theft of the South Korean Gold (Family gold). The family immediately swung their satellites into place and sent their ships into the waters surrounding the USS George Washington to stop the theft.

Then President Park's men had already melted the gold bars into smaller ingot bars, but the "DNA" within it revealed that it was the Family's gold.

Plot for Japan to Invade Indonesia

After being thwarted in South Korea the Cabal resorted to mobilizing the Japanese military in a plotted attempt to invade and steal the Indonesian Gold. Neil got wind of this intended invasion and publicly derailed it by exposing the planned attack and notifying the Indonesian government.

At the same time Keenan exposed another Agency plot of sending Colombian drug dollars through the Clinton Arkansas Foundation directly to Indonesian globalists and politicians in their attempt to create panic and chaos in Indonesia in order to force a change of government.

That plan was to assassinate the Indonesian Vice President.

The Clinton Gang had flown in on their private jets, the Japanese Emperor's sister had also flown in on her jet with her Indonesian husband, and money transfers had taken place through Bill Clinton's Arkansas Foundation – directly to a political party.

Said funds were illegal, confiscated Colombian drug funds which somehow found their way from the US Drug Enforcement Agency coffers through the Arkansas Foundation into Indonesia with the main objective being to steal what does not belong to either the Clintons or the Japanese Emperor's sister.

The assets belong to the Depositors. Get it yet!?

An attempt was made by the *U.S. Corporation*, through the *Clinton Arkansas Foundation*, to “*split Indonesia into pieces for less than \$6 trillion dollars*”. In fact, there is more value in just a small portion of a gold bunker in Indonesia than the \$6 trillion (of useless dollars) that is being offered to overthrow certain portions of the Indonesian political structure.

Neil advised the Indonesian government that this was the plot, and of course, that the Japanese Military was on standby. Should they not be able to purchase the gold, the West and their Japanese allies would attempt to take the assets one way or another.

Keenan Exposes the Cabal's Expanding Plan to Take Gold From Thailand and a Few Other Asian Nations

By August Neil had received more inside intelligence reports that exposed the Cabal's expanding plan to take gold from Thailand and a few other Asian nations.

At that time U.S. warships had essentially blocked the Gulf of Thailand in order to threaten the Kingdom to give up their gold. At the request of the Royal Family of Thailand, the Dragon Family was called upon to speak with Thai King's elder son who was in charge of these Royal assets and the Family's immediate assistance was given.

Wall Street is Moving

In August 2014 Neil Keenan was given intelligence that is now in fruition in 2020.

The basic information was that “Wall Street” was in the process of moving out of New York to the city of **Stamford, Connecticut**, closer to home for the Gordon Gekko rats of the world. In Stamford, the names of giant banks like UBS and Royal Bank of Scotland sit atop downtown skyscrapers. Now, many more other banks have setup shop there.

It's not Wall Street any more, its Stamford across the border, right next to their homes in Greenwich, New Canaan and Darien, famed for playing host to legions of hedge-fund executives, titans of Wall Street and a sprinkling of old WASP money that has been kept in the same exclusive New England families for generations.

The Wall Street's shove-off from the island of Manhattan makes a lot sense when all hell is about to be let loose. What are their future plans for Manhattan now that they are vacating Wall Street?

Maybe they're privy to the news Neil discloses in this post about the Obama plan, or call it the Cabal Plan, to impose martial law in the United States, which would shut down the banks and people would not have access to their bank accounts, debit or credit cards to buy food.

Trying to take food or supplies would give the military or police the right to shoot. On top of that they intend to unleash on the American public a variety of deadly diseases to make the people weak and sick. We cannot allow this to happen to our family, friends or our communities.

(Neil revealed this in 2014. Does it sound familiar today?)

When they come knocking on your door you better have a gun ready because they're going to shoot you if you don't shoot them.

Does this old exposure have any validity today?

In late August after editing disputes with Jean Haines, Neil Keenan released his own website, neilkeenan.com. It was launched with the mission to defeat the Cabal and broadcast reliable and truthful information on global events.

All previous postings on the Haines site were transferred to and archived to the new website where they are all still available for viewing and historical research.

The Umbrella

During the rainy season, monsoon storms often cause flash floods in Jakarta. On this day Neil found himself stranded in a mall down the road from his hotel and a flooded street in between.

Neil was not adverse to getting his feet wet as he only had on a T-shirt, shorts and sandals and would get fresh clothes at his hotel. Intrepid in resolve he thus ventured forth through the crowd of worried and waiting on-lookers.

As he made it to the curb with water already lapping above his ankles, he was approached by a young boy holding a huge umbrella. The boy was about eight years old and barely three feet tall, but he had a smile as big as his umbrella.

The little street boy offered to escort Neil across the flooded street shielded from the rain by his huge umbrella. How could one refuse such an offer, so Neil agreed and the odd pairing slowly waded into the swirling brown waters.

The flood waters progressively got deeper, first to Neil's knees, then to his waist and he was more than halfway across the street. The young boy was now struggling a bit as the water was now chest high on him, but he still held his umbrella high.

About three-quarters of the way the roadway sloped further down and left the little lad with water lapping at his chin and his footing on tippy toes, but he was determined to fulfill his commitment and pressed on bobbing up and down. Neil was, of course, getting worried for the safety of the boy. He asked him if he was still OK. The boy nodded and stretched his umbrella as high as he could.

A few steps later the courageous kid was totally under water but still staunchly holding his umbrella high. Neil immediately grabbed him and held him up to his chest. The boy sputtered a bit but still clung to his duty.

The water was now 5' high and creeping over Neil's chest, but he was only a few more feet to the rising curb, so he pressed on with the boy's arm around his neck and the other holding his banner on high.

They eventually made it to the inclining driveway entrance to his hotel and dry ground. The pair were both soggy wet, but Neil's hair was still dry! Both had umbrella smiles on their faces for conquering a stupid idea.

Neil rewarded the boy for his diligence and steadfastness with a USD \$50 tip which the boy handed back as he wanted Indonesian Rupiah and really didn't know how much a Dollar was worth. So Neil told him to wait and he would change the money.

A minute later Neil came back with the cash and peeled off a IR 100,000 note. The boy was simply flabbergasted. Obviously he had never received such a huge tip... ever before. He thanked Neil and started to walk away.

Neil called him back and peeled off another IR 100,000 note. The boy thanked Neil again and sincerely said that it would really help his family. He then turned with a big smile on his face, and Neil called him back again, but this time counted out the rest of the exchanged dollars, another IR 500,000 plus change. The boy could not believe the benevolent fortune that was in his hands... and tears welled in his eyes.

Neil told him not to cry because he had earned every bit of it through his unselfish act. One could see the gratitude and appreciation on the boy's face. Neil then reached into his pocket and pulled out another soggy IR 300,000 (USD \$20) and gave that to the open mouthed boy with instructions to give it to his family.

That made this boy's day and many more memory days thereafter.

Neil thanked the boy and told him not to go back the way they came. The happy boy nodded and gave Neil another big umbrella smile.

Neil never saw the boy again but one rainy day months later he was approached by a different boy offering an umbrella. That boy obviously had heard the story on the street. It wasn't raining that hard and there was no flooding so Neil declined the offer this time.

That is the type of kindness Neil exudes daily towards the needy people around him. Whether it be a waitress, store clerk, taxi driver or a poor child eking out a meager living on the street, Neil often provides that little extra attention or help that "**makes my day**" for so many that he comes in contact with every day. This is freely given generosity that defines the man that he truly IS.

And sometimes you have to give to get...

The Opening of the Box

Earlier it was mentioned that Neil had gone through a ritual initiation. This was actually in preparation for what would happen next in December 2014 and perhaps as an honor and in respect for saving Indonesia and protecting its and the Asian Families wealth.

In a historic precedent of enormous consequence, Neil Keenan became the first Westerner to enter a “bunker,” a vast repository of Asian family wealth containing gold, jewels, museum artifacts, modern global currencies in all denominations, as well as, invaluable documents detailing the truth behind some of the atrocities committed against humanity. (These documents will be used to fortify Neil’s lawsuit when it is re-filed.)

This one bunker (one of approximately 1,000 in Indonesia and throughout Asia), is a 16-acre, 4-level underground cavern filled with treasures deposited by the “Family” over many years until the present day.

Access to the bunker was not without multiple and unforeseen challenges. A number of clearances by the Elders were required before Neil and Jo could enter the bunker, but they remained undaunted by the long delays, lack of sleep and sparse shelter conditions as they waited “on-call” for entry at a still unknown location.

The year 2014 was a wild event filled ride, but the intrepid Neil Keenan remained undaunted and excited for adventures coming with the new year.

The New Year's First Catch and No Release

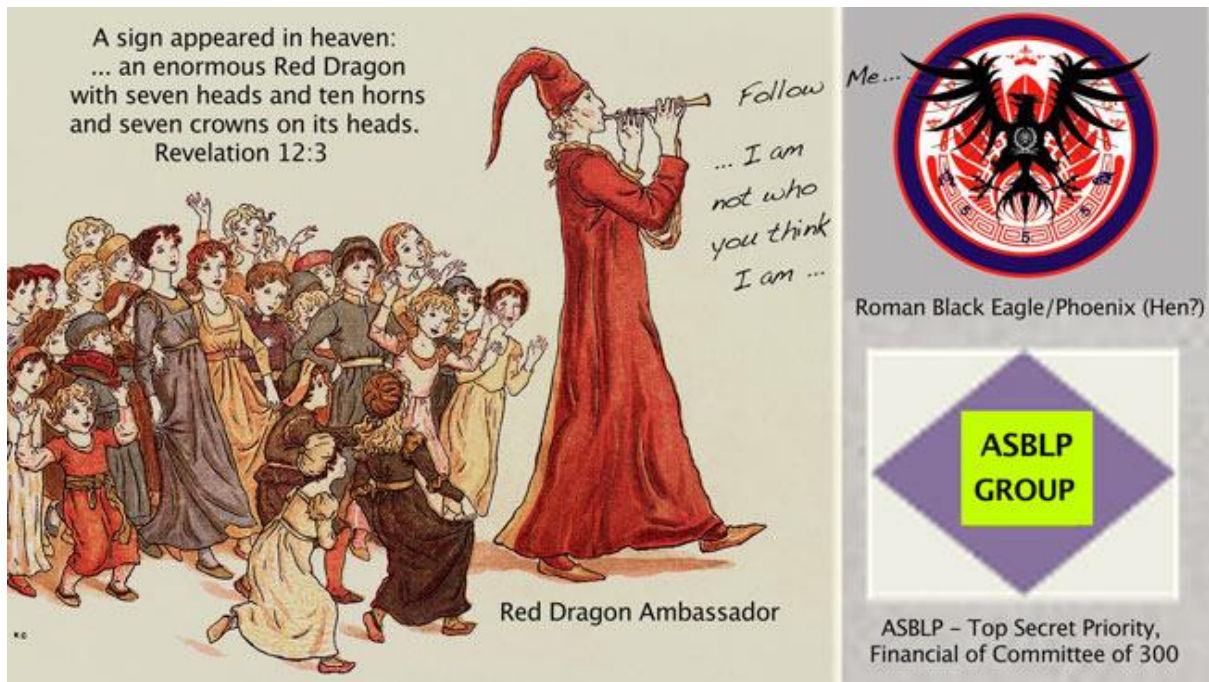

The Keenan Team Expose the 'Red Dragon Ambassador'

The year started off with a BANG as a new phony Player surfaces from the Deep. The Denison that arose from nowhere was called the "**Red Dragon Ambassador**".

The Keenan team figured out who the Red Dragon Ambassador was NOT real quick. There is one who calls himself the "Red Dragon Family" Ambassador.

He does not give his name, nor does he even allow his image to appear in the videos. But he does make all kinds of promises for humanity (sounds like SwissIndo), promises that only one near the top of the pyramid of Western Black Nobilities could conceivably make. But this is not possible?

The phony ambassador used a fake logo identification, fake names, “Red Dragon Asian family,” and most importantly, fake account - ASM, ASBLP Bank and LSM-TVM666.

Previous con-artists have made fraudulent claims to these accounts, which are not their accounts to begin with, so Neil and gang set out to expose who these scammers really are.

By July the Keenan Team had compiled a comprehensive profile on the fake Red Dragon Ambassador. So right up front, here it is.

The sweet-talking Ambassador of the imaginary Asian Red Dragon Family is none other than **Bo Mikael Lindstrom**, son of **Diplomat Mikael Lindstrom**, Sweden’s former Ambassador to China (until 2010), Japan (until 2006), Indonesia (until 1998).

'King' Anthony Santiago Martin (ASM) and the LSM-TVM666 Accounts as was first exposed in relation to the Ambassador, was (as in now dead) the current imposter-King of Marcos's and the Philippines wealth and his falsified "White Spiritual Boy Accounts" (or "Spiritual White Boy Accounts") from the World Bank Group documents and the fake ASBLP Bank which are a wholly counterfeit operation.

Let me be clear here. With the Book(s) in hand, the Greek Government would never have to worry about the European Union’s absurd demand for repayment. Another Assassination Attempt

In July an attempt was made on the lives of Neil and Jo. Several weeks before Neil was given intel and warned not to drive the dark car he was using for his trips around Indonesia. For a few reasons Neil and Jo decided to take a train to their next destination.

On their way to the train station to get tickets they were stuck in slow-moving traffic when a small Japanese sports car with darkened windows came up alongside their taxi.

After the first gunshot Neil could see which car it was coming from by the arm with the gun hanging out of the window. Two more shots were fired, one to the back door in the metal and the other smashing the window, just missing Jo’s head only because he had time to duck down.

Neil and Jo were all right and got the heck out of there by ducking out of the taxi and hightailing it through a cemetery near their hotel, through a bank and then through the back door of the hotel.

Back safe in their room, they went to their balcony to see if anyone was following them. A few minutes later a big black sedan pulls into the hotel, four burly guys dressed in black got out and headed into the hotel.

Resourceful Neil quickly went to his frig, took out a big bag of ice, and dropped onto the roof of the car. That cratered the roof and made a huge sound. The guys in black rushed out, got in their car and drove off... mission unaccomplished; again.

The next day Neil decided it would be better to take the train.

Neil Keenan: M1 / N1

In early December Group-K received the following information from an anonymous individual going by the name "Asian Insider":

Revelations from an "Asian Insider": Neil Keenan Is Number 1

"Late in the evening on November 25th, a meeting took place in an Asian country (not Indonesia) with the Elders, who represent the largest depository of the Global Collateral Accounts (GCA) assets (worth Quadrillions); the Spiritual Advisor to the Elders; Jo, who served as the translator; and Neil Keenan. Security was very tight.

After briefing Neil about the assets that are waiting for him, and that the "safe" time for their release is at hand, he was further surprised to learn that a year ago the Elders had also drawn up "letters" for him to sign.

Upon his signature, Neil Keenan would be known as "Number 1" (N1) - or, as the position is more commonly known, "M1."

It was by unanimous consent among all of the Elders that they elected Neil as N1. Had there been even one dissenting Elder, he would not have been elected.

Presently the documents are being finalized and sent to Neil for his signature. He will be given full Power of Attorney over their depository of GCA assets and officially become the Elders' sole representative and spokesperson for all dealings and the release of the funds to implement the Humanitarian Projects.

The funds will be distributed first to Indonesia and then to each of the 132+ Nations for projects such as the release of free energy and suppressed technologies, the cleaning of our water and the restoration of our oceans and lands, rebuilding infrastructure, education programs, etc. etc.

As the meeting came to a close, the Elders made one additional point clear - that Neil is free to venture forth with his own undertakings but with one provision that he never loses sight of Indonesia. There was no contention on this provision because Neil wants the Spiritual Advisor by his side and the support of the Elders. And since it is well-known that Neil's intent has always been to see that Indonesia becomes the "Jewel of Southeast Asia," this strong alliance with the Elders guarantees the most positive outcome possible."

So there it is — should Neil Keenan sign the documents, he will be N1 (= M1) for the worldwide distribution of the GCA assets.

For nearly 100 years the Indonesian Elders have held these notes on behalf of the depositors. They have not been able to make use of any of the notes because the Western banking system has shut them down every step of the way.

It cannot go without saying that the Elders have not been given any remuneration for what they have safeguarded for so long. Some have been assassinated, and some have been imprisoned for their roles in spite of the fact that each and every move the Elders have made has been entirely legal.

Yet in Europe the Western banking system has illegally managed to get hold of notes and use them as "casino bonds," freely gambling them on anything they chose – they never worry about losing what they don't own.

But now it cannot be denied that the game is changed. Drastically. Not only does Neil have the old codes from the Book of Codes, he also has all of the New Codes. Once the accounts are opened and audited, the codes will reveal precisely who played with the depositors' notes.

Last-Ditch Ploys of the FED

A group representing the Federal Reserve Bank arrived in Indonesia and approached several Elders. This group claimed they would cash in or monetize the assets that the Elders were holding but only on one condition: the Elders could do no business whatsoever with Neil Keenan.

Of course the Elders are well aware of the crimes that the Federal Reserve foisted upon humanity since its very inception in 1913. They are well aware of what President Sukarno and President Kennedy tried to do over 50 years ago.

In fact, the Elders are well aware of a lot more than what wealth will do for this planet.

They know their legacy is ultimately a spiritual one, the only eternal value. That even such a

proposal would be presented to the Elders reflects that the FED is in such deep denial as to be inconceivable.

As one group of Elders has repeatedly told Neil: *"We have been waiting for you for 30 years Mr. Keenan, and now you are here."*

The nations of the world elected President Sukarno as M1, the monetary controller of the GCA. Now the Elders have elected Neil Keenan as N1/M1.

Neil has been responsible for the protection of the GCA for more than six years, and like the Elders, there has been no remuneration for his efforts.

They both have selflessly laid the groundwork for what is to come. Who can say what untold millions of lives, or even future generations, have been saved due to their groundwork.

Without a doubt, Keenan stands as a one-man wrecking crew.

The Book of Codes: Our All-Seeing Eye Weapon

Final note: Neil has surely caught the cabal bankers' attention by having the Black Book (the Book of Codes). Remember this book opens up the Black Screens which allows one to see who illegally used the assets, when, and for what purpose.

This bothered the Western Bankers to the degree that they changed the codes.

New codes were issued and in fact Neil received the New Codes in his hand 5 minutes later.

He has both Old and New so feel comfortable knowing the theft will not continue unnoticed and will be dealt with shortly in a swift manner by the legal and security team Neil is putting together.

Neil now has the updated Codes for the **Black Book, the Book of Maklumat, The Book of Conveyance, Operation Heavy Freedom, Green Hilton Agreement, Blue Book, Red Book and much more.**

When he re-files his lawsuit this will all be incorporated as just a small piece of it.

Neil Keenan: Continuing on with and furthering their work... SALUT!

Ongoing – Keenan Makes His Final Push

Neil Keenan now makes his final push for substantial access to the bunkers and the opening of the Global Collateral Accounts.

His efforts have been stalled by the Cabal's criminal tactics. They have "disappeared" Keenan's bank accounts, murdered a good friend who was providing help, attempted to kill another associate with a car "accident" and even demanded a country not deal with Neil.

During his journey to do what must be done, Keenan has met all comers. He has gone head-on against the skills, liars and slanderers.

All have retreated and, in some cases, await facing serious legal charges.

He has evaded assassins and emerged unscathed, all with his sense of humor intact.

By example, Neil Keenan has clearly demonstrated what one man can do to take down global domination by those who are engineering the complete demise of mankind and the planet.

Now Neil Keenan is garnering more and more talent and has brought in two experts who are second to none, top-notch security and a most powerful international attorney, all ready for action and placing Group K on another level.

Step by step Neil says the puzzle is coming together.

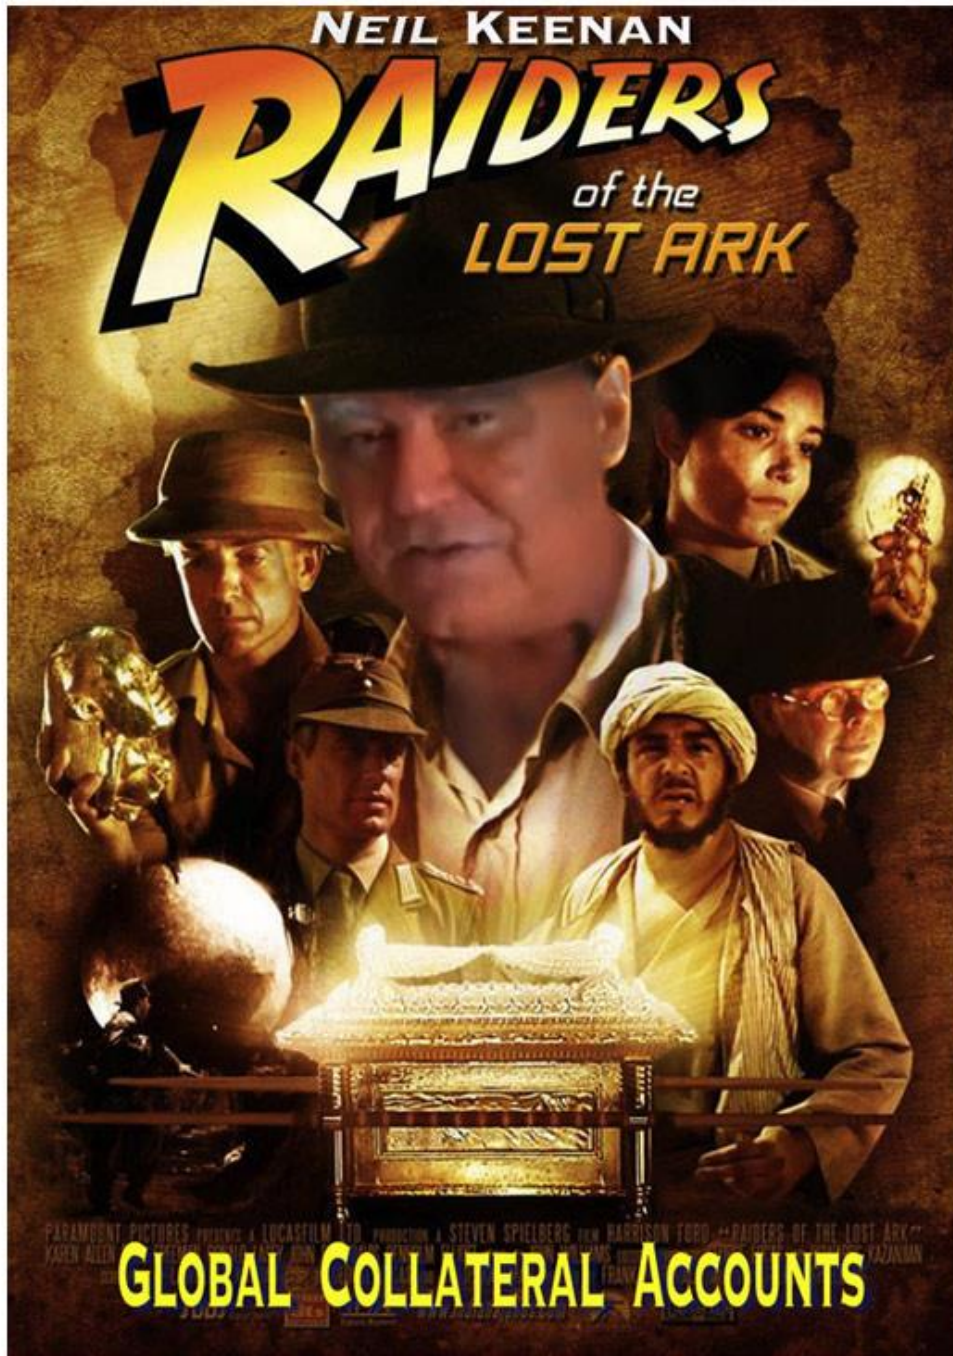

Challenges and Delay Tactics Neil Has Had To Overcome: (His FOOTSTEPS from 2008 to 2015)

- ▶ **Neil has spent millions of dollars of his own money in this journey to free the Global Collateral Accounts for humanitarian purposes.**
- ▶ **After Neil filed his law suit against the Cabal in November 2011, they held his US passport and he was put on the no-fly (black) list by Obama. Neil has not been home to the USA since.**
- ▶ **The Cabal proceeded to freeze AND STEAL millions of dollars of Neil's own money in South America and the Caribbean.**
- ▶ **During end of 2014 – January 2015, thieves in Indonesia stole \$6.0 million from Neil during a deal for the benefit of the Elders.**
- ▶ **Starting off in 2015, Neil was robbed on his debit card account in Indonesia and also his personal bank account at home. Each of these accounts had more than six figures in them.**
- ▶ **There have now been a total of 6 major attempts on the life of Neil Keenan and other attempts on his team in this period.**

Is Our World About To Be Set Free?

Is this massive alliance about to make its move on the banking and political cabal? Is Neil Keenan and his team about to finish what JFK, President Sukarno and many others were trying to accomplish?

Will the 9/11 connection to the Global Collateral Accounts finally come to light?

To these questions, Neil Keenan has a statement for the world:

“JFK, Soekarno, 9-11 and everything surrounding it, all boils down to one and the same groups or organizations that are known as the Cabal or NWO. Look no further than Rothschild’s, Rockefeller’s, and on a lesser scale Bush’s, Netanyahu’s, etc.

We must always remember that according to these people, we, the “goyim,” are the enemy and furthermore we must understand not only are they Khazars (read Khazars and their empire) but Satanists and clearly want us all dead.

They want the world, this planet and everything they touch. They taint everything they make, put together, manufacture, and one way or another are taking precious seconds and minutes away from our lives.

They go so far as to poison baby food (Johnson and Johnson’s most recently caught, simply stated we are sorry and will take the toxins out of the baby food), but when caught they simply walk away leaving a path of utter destruction for the world’s families.

It is time we defend our families, our planet, our friends and those who will soon be lifelong friends. It is time to bring our planet together as one, to fight these evil criminals disguising themselves as politicians. It is time to fight them as they fight us — stop talking about it!

The road to the collateral accounts was initially filled with litter. From OITC (Ray Dam), OPPT (Heather Tucci), Swiss Indo (Sino), Karen Hudes (who never did understand the collateral accounts and had never heard of the Dragon Family when she requested my help), Red Dragon Family, World Economic Forum (Davos and Giancarlo Bruno), the UN, and many others that I have never mentioned.

They all decided at one time or another that they owned or managed the accounts when in fact not one ever had any of the DEPOSITORS’ permission to represent said accounts.

We took them all down and we laid them to rest, but similar to a film script they often return to life and take a second shot at things after taking a deep breath but ... they are all just fiction.

We are on the road to opening the accounts. The litter has been tossed into the garbage where it belongs and upon completing this road, we will control the accounts. The big question, even one from the Dragon Family is... will I be able to move the notes and the answer is YES!

To conclude this chapter I must not forget to thank those who are going to take this to another level once the accounts are opened. Our team is getting stronger and we are becoming more lean, mean and more effective.

Upon the opening of the Global Collateral Accounts we will have a very powerful legal team which I would like Anna von Reitz to lead. As for the Financial team, I will look to my financial advisor Chris Brosnahan.

And then with the security team that will have the power of arrest, we will have a group of experts from various fields of expertise ready to serve and save.

Our security teams will venture forward, making the necessary arrests of those who have illegally utilized the Global Collateral Account assets in committing various acts of banking fraud.

In addition, we will gather many leading experts in all fields including new and advanced technologies..

A new name for many, Simon, will be ready to open up the doors to Latin America. He is a very patient man and I thank him for being such, seeing as my sitting here with a concussion could not have helped anyone at all.

Finally, the rest of the team will return – and some will be back from the past and we will utilize all our experience moving forward.

My secret weapon: Belize, is ready to go and raise havoc. So be it – we are near ready to launch our ships.

And so God bless everyone despite the devils, and have a fantastic holiday. I am very surprised we have made it this far with such a limited budget. But it is what it is, so let's take this to the next stage and entitle it "The Beginning"...

Thank you Nelu, Richard, Mark, Jo, Lorraine, Michael C, Roger, Count, Jeanne, Rob, Michael D, Jeanne, Frank, Bill M, David W, Inchul, Stanley, Peter T, Benjamin, Peter E, Shirley, Matthew G, Lance, et al. And thank you Radin for providing your spiritual guidance and abilities to the forefront of this entire fiasco as another form of protection.
